## SUMMARY

Currently employed as a Full-Stack Developer at Revota for 3 years, with a background in developing and deploying web API services and web applications as add-on features for the company's primary product (POS & WMS), which boasts over 150 stores and warehouses.

Experienced in developing web API services and web applications using NestJS and FastAPI (also React until February 2024), along with expertise in DBMS PostgreSQL and MySQL.

Experienced in integrating web API services with Omnichannel platforms such as Ginee and Forstok.

Skilled in deploying web API services and web applications on Linux Ubuntu and CentOS servers using Git, Docker, and Nginx (also Jenkins since December 2024).

My orientation toward Front-End, Back-End, and DevOps remains adaptable, demonstrating my readiness for assignment to any of these domains.

A quick learner, highly enthusiastic about acquiring new technology skills.

NB: I always failed coding tests but could still do all the above.

## PROFESSIONAL EXPERIENCE

### REVOTA, Bandung, West Java, Indonesia

#### Full-Stack Developer

February 2022 – Present

My tasks and achievements:

- Develop web applications using React (until February 2024).
- Develop web API services using FastAPI, NestJS, and DBMS PostgreSQL.
- Deploy web applications & API services on Linux Ubuntu and CentOS servers using Git, Docker, and Nginx (also Jenkins since December 2024).
- Setting up a CodeIgniter 2-based project for a new client.
- Experienced in setting up a web server from scratch.
- Experienced in troubleshooting projects on production.
- Experienced in integrating web API services with Omnichannel platforms such as Ginee and Forstok.
- Bring my bosses' project ideas to life.

#### IT Support Specialist

January 2018 – February 2022

- Configuration, troubleshooting, and data management of/using Microsoft SQL Server 2000.
- Configuration and troubleshooting of Microsoft Visual Basic 6-based software.
- Configuration and troubleshooting of invoice and barcode printers.
- Configuration and troubleshooting of Windows 7, 8, and 10 operating systems.
